Hi Liz,

I just got in and found your fax. Isn't it incredible how some people just can't take the time to do things right the first time?

I've got the addresses but I need to double check on the counties.

I'll call the town offices to verify counties.

Hope all is well with you. I think it would be beneficial if we got all parties involved in this initiative on a conference call to discuss how we execute the next time around because this was not done well.

Have a good day - John

John, I am going to fax to you two affidavits that we cannot read the labels
on the packs nor the affidavit. I need to know on the affidavit marked 1--Is
it really Suffolk county? (Looks like the name was marked down but then scratched through) and what is the street address and the city? (Looks like

it could be Memorial Drive but I cannot make out the name of the city) I can read the name of Wall Mart. Also the affidavit marked 2--what is the name
of the street address of retailer (Looks like some kind of Highway but we cannot make out the name nor the name of the city. The packs received from

these locations are not legible either and the name of the county was not filled in at all so we need this information to complete our records. I can
read the name Wall Mart. Thanks!!!!
